Big city to west - 20 km to west

cluster of buildings w/ white fencing near
edge of bldgs.

Some kind of arm/ barricade of some
kind like on entrance or gate
way.

blockhouse facing one of the bldgs
no doors or windows but about
3 floors up is a ~~one~~ window.

short observation tower with
concrete wings going out from it
Road.

Building are different on R. of
blockhouse than on its left.

tower

1. To front see red walls on the R.
2. like a city street at 90° angle to
road
3. black auto but no other veh.
4. behind is open country
5. caravan of vehicles parked to
6. very large trucks (5-ton)

Such of

7. Armored vehicles (can't tell if heavy or light) having "holes" in them.
8. They only go a little ways to the trees.
9. Russet-tan w/ splashes of white on vehicle
10. dirty - driven recently
11. canvas tops very dark green
12. metal parts are russet-tan w/ white spots
13. men arent in trucks - They're behind some trees in the forest. They appear to be camped/ bivouacked or something
14. double white bars - crisscrossed - kind of parallel -
15. red stripes in front of bars, down sides of veh.
16. small white numbers forward of red stripes 212

17. Two sets of vehicles
18. along road are mostly troop carriers & smaller armored vehicles with holes in them look like assault type vehicles
19. another group in a valley area to rear of hills. much larger concentration. a temporary transportation depot/park. which up under trees as well

tower

1000 8 Dec 80:

24. lot of people in street by tower
dressed mostly in dark coats
milling around in street, just
looking away from tower

25. little traffic - still no auto's

26. not as many people on other
streets

1000 11 Dec 80:

27. lot of differences:

28. light amount vehicles parked
street-side by tower

29. light jeeps down by corner

30. lot of soldiers milling around
in light green uniforms

31. two heavy armored vuh,
parked Catty-corner to tower.
very lge barrels

32. vehicular traffic but very
light - mostly military
trucks

*2nd park
location* → 33.

about 1/5 of vehicles in valley
are still there. Rest are gone
One lone row still there -
rest are gone. Ground
cleared up. Lot of activity
with trucks in the depot.

*back to
tower*

34. heavily armored / flat plate on
front / wide turret / taller than
expected / tanks / barrels are
very large but not like -
a 155 mm. Snorkel type device
along R sides of tanks strapped
next to cans.

1000 14 Dec 80

35. 4 lighter armored vuh with
holes on left side of tower

36. 2 big tanks gone

37. 3 groups of soldiers - 2 by
tower, 1 across road in
edge of buildings. Smaller
sedan vehicle by inter-
section. Truck convoy
sitting by tower, 8 large
trucks. Have troops in them

(3)

still very little traffic, all military traffic.

38. Troops in trucks and other things/boxes and barrels/
39. Wearing light green, air-cooled M65s (hood sleeves over barrel) wrap around boots with suskles. black diagonal leather strap across shoulder. Helmet looks a lot like US helmet - maybe a little lower around ears.
40. Very heavy featured-like mountain people.
Experienced troops but like mountain people. Heavy boned, heavy featured.
41. Predominant emotion of troops nervousness - not fear but apprehension/nervousness. More from apprehension of unknown
42. Activity in valley depot is very quiet. Policed up more (than before).

by tower. Sedan beside it.
5 or 6 troopers armed by
tower. Lot of foot
traffic. Some other troopers
down road, what looks
like some kind of barricade.
Some vehicles half mil,
half civ. Snowing. Appear
a little more activity than
before.

In the

Going Free in time! Determine
purpose and direction of
movement of vehicle that
used to be in the depot
area in the valley"

They moved thru the city
 into another city, but a
 different direction. From
 the tower, thought it was
 West direction, but think
 they moved East.

(in depot)

48. Standing and facing city,
 which is direction the
 vehicles go. Answer
 was East-Southeast
 which doesn't make sense.
 (movement is) Early in
 December. The vehicles
 don't come back.

49. From depot to city, then
 north, like a right angle
 30° from the first city
 to another city. And that's
where they are (in the
 second city).

50. They are just parked
like a parade display
in the (second city)
